

PRAKASH MANI

MERN STACK DEVELOPER

+91 8795901180 prakashmanig000@gmail.com linkedin.com/in/prakashmani87/ Azadpur, Delhi

SUMMARY

Full-Stack Developer skilled in MERN stack. Experienced in RESTful APIs, CRUD operations, authentication, and UI development with React and Redux. Proficient in building user-friendly, scalable web applications with optimized performance. Passionate about problem-solving and continuously learning new technologies to enhance development efficiency.

EXPERIENCE

Zoko World | MERN Stack Developer

- 01 June 2024 – Present Preet Vihar, New Delhi
- ❖ Designing and developing full-stack web applications using MongoDB, Express.js, React, and Node.js.
 - ❖ Building and integrating RESTful APIs for seamless data communication.
 - ❖ Working with clients to deliver custom web solutions tailored to their business needs.

TRAINING & CERTIFICATION

DUCAT | MERN Stack Developer

- 20 Sep 2024 – Present Pitampura Delhi
- ❖ Developed backend expertise with **Node.js**, **Express.js**, and **Mongoose**, while exploring database commands.
 - ❖ Developed frontend expertise with **React** and **Redux**, mastering state management and component architecture.
 - ❖ Proficient in JavaScript, with skills in DOM manipulation, conditionals, loops, and functions.

ANALYZE INFOTECH | Frontend Developer

- 01 June 2023 – 28 Feb 2024 Lucknow, India
- ❖ Built high-performance, reliable, and scalable frontend applications using **HTML**, **CSS**, **JavaScript**, & **React.js**.
 - ❖ Integrated **REST APIs** with **Node.js** to enhance functionality and user experience.

INTERNSHALA TRAINING | Web Development

- 15 Sep 2022 – 09 Nov 2022 Lucknow, India
- ❖ Completed an 8-Weeks online training on Web Development.
 - ❖ Using HTML, CSS, Bootstrap, DBMS, JavaScript, React.

EDUCATION

B. Tech | Computer Science and Engineering

SR Group of Institutions & Technology

- September 2020 – June 2024 Lucknow, India
- ❖ Focused on software development and full-stack web technologies (MERN stack).
 - ❖ Developed a **Vehicle Renting Application** as the final year project.

SKILLS

HTML CSS Tailwind JavaScript
React Redux React Router
Node.js Express.js MongoDB
Socket.io REST APIs Router
MVC GitHub VS Code Postman

KEY ACHIEVEMENTS

Project Achievements

Successfully designed and developed a Library Management System and Chat Application using modern technologies, featuring secure login, real-time messaging, and user role management for a better user experience.

PROJECTS

LMS

[URL | GitHub](#)

- ❖ Built UI with **React**, **Redux**, and **Tailwind CSS**, implementing role-based functionality (Admin, Faculty, Student).
- ❖ Integrated **authorization** using **local storage & React Router**.
- ❖ Developed **Node.js & Express.js** server using **MVC architecture**.
- ❖ Created **RESTful APIs** for **CRUD operations**.

Chat Application

[URL | GitHub](#)

- ❖ Built UI using React, **Zustand**, Tailwind CSS, Daisy UI, & **Socket.io** Client.
- ❖ Developed server with **Node.js**, **Express.js**, and **Socket.io**, implementing authentication using **JWT & cookies**.
- ❖ Real-time UI updates and **two-way** communication with **Socket.io**.

Vehicle Renting

[GitHub](#)

- ❖ This car rental application allows owners to log in, rent cars to customers for specified durations, and log out.
- ❖ The UI is built with React, and the backend utilizes Node.js, Express.js, and Mongoose for data storage.
